The cordless phones i have make above have the caller ID facility had them about 6 month. Ive messed on basically and cant get the caller ID to show when the phone rings.

The manual is on website here any ideator has anyone got one of these phones and can help. The cordless phones i have make above have the caller ID facility had them about 6 month. The manual is on website here any ideator has anyone got one of these phones and can help. Unfortunately the Virgin website indicates that not all phones can cope with their caller ID. For Caller Display you will need a compatible Caller Display phone or Caller Display unit look for the British Standards Mark, ideally one that meets multistandard Caller ID. Old Caller Display phones and units in particular sets pre1999 may not be able to receive Caller Display from a cable line. The vast majority of current Caller Display phones or Caller Display unit are compatible on Virgin Media network. The cordless phones i have make above have the caller ID facility had them about 6 month. The manual is on website here any ideator has anyone got one of these phones and can help. All Rights Reserved. Home Feedback Contact Add to favourites Item Description DORO Magna 4000, Seniors Phone DORO Magna 4000, Senior Citizen Whats in the box 1 x Base Unit, 1 x Horphone Unit, 1 x Horphone Cable, 1 x Telephone Cord, 1 x Wall Mount Bracket, 1 x User Manual Pressing the Boost function raises the listening volume to 60 dB and one setting Easy sound control ensures a good and clear sound quality according to individual needs. The corded phone not only has a loud ringtone, but also a visual flashing light to signal incoming calls. Thanks to large buttons, it is very easy to use. Other useful functions include direct dial keys, a high contrast display, a telephone book, a handsfree system and much more. Weekends and bank holidays do not apply to any of the above time frames Please note that we are using the following shipping services FedEx Express, FedEx Economy and DHL Deutche Post Countries as Israel!!! Argentina!! Mexico! Russia! Maldives! Vietnam! Ukraine!

Kazakhstan, Philippines Estimated delivery time is 510 weeks due to the destination countries customs delays and not our or the couriers. If you do not agree with the above timeframes please do not purchase from our shop. Free Insurance Coverage with Every Parcel Please note that it is the recipients responsibility to open and inspect the package. Only if the item is undamaged you can sign and accept delivery. The insurance will not be valid if you sign for the delivery for a damaged box. A replacement or refund will not be offered if you claim that your package arrived damaged but you did sign and accept the delivery which resulted in voiding the insurance. Payment Paypal Payments are subject to below requirements Buyers should have either a confirmed PayPal account address or verified PayPal account We expect PayPal payments to be eligible for sellers protection. If a buyer asks to deliver the item to a different address which results in the cancellation of our sellers protection program, the order will be cancelled and a full refund will be issued without a warning.

Import Taxes Import Taxes Its always the buyers responsibility to clear customs and pay the relevant custom duties Customs are Government Agencies regulating international shipments. Before delivery each package needs to be cleared by the destination countrys customs Paying for an item does not mean you pay for your countrys import taxes, if they occur We are not responsible for any customs charges, taxes and duties that may apply If the buyer will return the item due to refusal of import tax payment, all shipping costs and applicable duties will be deducted from the refund. Customs clearance may differ for each country.

Please find out about the import taxes and duties in your own country before buying from us and only purchase if you accept the above terms Returns Returns If you have any problems with the purchased item, please contact us within 7 working days from receiving it If there are irremediable defects with the devices, you can return them back to us for repair or replacement within 30 days Returns for a refund are only possible within 30 days since the purchase All returns must be preauthorized. Please contact us with the reason for your return request All items must be returned unused, in their original undamaged packaging, with full box and its contents. The returned item must be the exact item that we sold. We will compare serial no. We will file a report against buyers who try to abuse the return system and ship back an item we never sent or a package that is missing content. Also, a legal notice will be sent out to the buyer All returns must be sent back to us within 14 days since the day you received the items. For non European transaction the return shipping company must be the same as the delivery company to avoid any import taxes in Germany.

If the item will be returned with a courier of your choice and this will result in import taxes in Germany, either the package will be refused or the import taxes will be deducted from your refund Restocking Fee For buyers who change their mind or want to cancel an order after we dispatched it but before receiving it, the shipping fees and import taxes, if any, will be deducted from the buyers refund Please note that if the return is due to change of mind or order by mistake, then all returned items are subject to a 20% restocking fee Guidance All customer returns must be accompanied by an online tracking number All customers are advised to safely keep the proof of payment for shipping back the returned items, along with the confirmation note or slip provided by the relevant courier service with the tracking number on it, until we confirm the successful receipt of the returned items Customers are responsible to cover the cost of returning the package if the return reason is change of mind or order by mistake We advise you to include a note with the ebay item number and your ebay user ID clearly written, along with the return package. Soon after our Returns Department has received your returned package, the necessary actions will be initiated to process your refund and this process could take up to 24 working days Your refund will be made using the same payment method you used to make the purchase. Some of our items might not come with English manual and this is our general condition when it comes to plugs or manuals, but you can contact us for more information on any item you might be interested in. erence. It is normal for the device to become warm during charging and this is not dangerous. Use only original batteries. The guarantee does not cover any damage caused by using the wrong batteries. Steady light during calls and as hes when there is an incoming caller new message on the answer machine. Range The telephone's range depends on whether or not the radio waves carry the call are restricted by obstacles in the path, and is usually between 50 and 300 metres. Coverage can be improved by turning one's head so that the handset is aligned with the base unit. Delete if necessary with right menu button C. 2. Press q to make the call. Receiving a call 1. Wait for the handset to ring. Wait for the handset to ring. 2. Press q to answer. Press L to end the call. Paging The handset will ring when J on the base unit is pressed.

The signal will stop automatically after a while or if the L button on the handset or the J button on the base unit are pressed. Softkeys Note the two keys are "softkeys". The function is shown in the display directly above them. If you subscribe to a caller ID service, the name allocated to the caller in the phonebook will be shown for incoming calls. It is possible to choose between various rings for the numbers saved in the Phonebook only functions if you subscribe to a caller ID service. You can quickly search the phonebook by pressing the corresponding number key for the first letter. 2. Press q to make a call or press for various options. NEW CALLS will be shown in standby mode and this function requires a subscription from your service provider. Caller identification messages In addition to number display, the following messages will be shown occasionally OUT OF AREA Unknown number, e.g. international call. WITH HELD Information about the number is blocked. Number cannot be shown. When the alarm goes off, a signal will be heard for 45 seconds. The signal can be turned off with a button. If SNOOZE is activated the alarm will go off again approx. 7 minutes later. Turn the alarm off permanently via the menu or by holding L down for a few seconds. The volume is determined by the setting level. RING SETUP The handset's ring signal. Melodies 2,3,4.. can continue for up to 8 seconds if the call is answered in another phone. TONE SETUP Any of the following warning tones can be disabled, Keytone, low battery and range. LANGUAGE The language of the display texts. RENAMES The text shown in standby mode. HS DISPLAY Show name or time in standby mode.

A tone will be heard if an external call comes in while an internal call is in progress. End the internal call with L and then answer the external call with q. Register a new handset All handset settings included in the package are already registered to the base unit. You can register up to 6 handsets to one base unit. This model is GAP Generic Access Pro. However the GAP protocol can not guarantee that all functions may be accessed. Extra handsets will not be available as accessories. 1. Hold down J base unit until indicator flashes. 2. Press. Scroll to REGISTERATION. Press OK. 3. Enter the base unit's PIN code e.g. 0000. Press OK. 4. If the registration is successful the unit will return to standby mode with in one minute. Most functions can be accessed from both base unit and handset. If there are new messages, the indicator will flash when the handset is on. Even when answer machine is OFF it will still answer after 10 rings, please see Remote activation. Outgoing message The outgoing message max 3 minutes is heard by incoming calls. There are two separate outgoing messages, one for Answer only calls can not leave a message and one for normal answering function. Please also select desired answering function. Press OK. 5. Scroll to RECORD MESSAGE. Press OK. 6. After the long beep you can record your message speaking 20 cm from the keypad. Press OK. 7. The message will be played back to you. Repeat the above to change. A pre-recorded message is used until you make your own recording, and that message can also be re-recorded if required. To restore this, press Right menu button during playback of outgoing message. Screening Incoming messages will be heard on the loudspeaker of the base unit as they are received.

You can also press OK on the handset while recording is in progress. The call can be intercepted by pressing or lifting the receiver of another telephone connected to the same line. When T A M F U L L is shown on the base unit flashes FF, no new messages can be recorded until the old ones have been played back and deleted. In that case, the telephone answer machine responds with the outgoing message for Answer Only. P L E A S E N O T E ! Remember to delete messages regularly. T A M L A N G U A G E Select language for pre-recorded outgoing message. To activate this, press C right menu button during playback of outgoing message. R E C O R D T I M E Select maximum recording time for each message. C H A N G E P I N Change remote access code 0000. The Time Saver function answers calls after six ringsignals, until the first new message has been registered then the answer machine switches to answering a fewer approximately two signals. This is useful when using remote access; if you call up the answer machine and there is no reply after four rings that means there are no messages recorded and you can hang up before you are charged for the call. Remote activation The answer machine can be activated via the remote access functions. 1. Call the answer machine. If the problem is resolved, the fault is with some other equipment. Test the equipment on a known working line e.g. at a neighbour's house. If the equipment works there the fault is probably with your telephone line. Please report this to your network operator. No number shown when ringing This function requires a Caller ID subscription from your service provider. Move closer to a base unit.

The telephone continues to ring Some of the telephone's rings do not follow the line signal, which means that the signal may continue for up to 8 seconds after answering a call. The answer machine does not respond to remote access Check that you are using a tone dial telephone. Try holding the buttons down longer, approximately 1 second per digit. Don't forget the receipt or a copy of the invoice. Specific Absorption Rate SAR This device meets applicable international safety requirements for exposure to radio waves. If you experience any problems please contact the place of purchase. Proof of purchase is required for any service or support needed during the guarantee period. This guarantee will not apply to a fault caused by an accident or a similar incident or damage, liquid ingress, negligence, abnormal usage, non-maintenance or any other circumstances on the user's part. Furthermore, this guarantee will not apply to any fault caused by a thunderstorm or any other voltage fluctuations. As a matter of precaution, we recommend disconnecting the device during a thunderstorm. Batteries are consumables and are not included in any guarantee. You can also contact us in writing regarding any Spares or Technical queries Customer Services Doro UK Ltd 1 High Street Chalfont St Peter Bucks SL9 9QE. Furthermore details are available on our website www.doro.co.uk. These marks indicate the products comply with the regulations and can be legally connected in the country of purchase. The maximum power of this telephone is not greater than 1.4 mW. This is below the 20mW limit at which testing is required. REN RN for New Zealand The REN Ringing Equivalent Number or RN is of signi.

A standard telephone line has a maximum REN capacity of 3 RN of 5. It is possible to connect 3 devices with a REN of 1 RN of 1 with no degradation to the product's performance. Exceeding this limit may cause the volume of the ringing in any phone to decrease or not ring at all. ALL PRODUCTS The grant of a Telephone permit for any item of terminal equipment indicates only that Telecom has accepted that the item complies with the minimum conditions for connection to its network. It indicates no endorsement of the product by Telecom, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of Telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Telecom's network services. This equipment shall not be set to make automatic calls to the Telecom "111" Emergency Service. This equipment may not provide for the effective handover of a call to another device connected to the same line. This equipment should not be used under any circumstances

ances that may constitute a nuisance to other Telecom Customers. CND PRODUCTS If a charge for local calls is unacceptable, the "DIAL" button should NOT be used for local calls. Only the 7 digits of the local number should be dialed from your telephone. DO NOT dial the area code digit or the "0" prefix. Ne placez pas la base a proximite d'appareils electriques, d'une source de chaleur ou dans un endroit expose directement au soleil afin de minimiser les risques d'interferences. Vous pourriez observer un echouement de l'appareil pendant la charge; ce phenomene est normal. Utilisez uniquement des batteries d'origine.
